Abstract:

The Hong Kong Institution of Engineering Surveyors is excited to present a seminar on the latest updates in BIM related government policy (Devb Tech. C. (Works) No. 2/2021) and corresponding career development for those in construction industry.

The Hong Kong Government has mandated the adoption of BIM technology in capital works projects with project estimates more than \$30 million.

Furthermore, the Certification of BIM Coordinators was launched by the CIC in March 2020. The objectives of the Certification of BIM Coordinators are to set standards and ensure relevant construction professionals and other personnel have the appropriate skill levels and competency in using BIM technology to meet the industry's needs.

The speakers for this seminar are Lam Lityin and Michael Leung, both of whom are experts in the field of engineering surveying. They will share their insights and experiences on the above-mentioned issues during the seminar.

Join us for this informative seminar to stay updated on BIM applications and developments in engineering surveying.

About the Speaker:

Sr LAM Lityin is Director of D-Reality Consultancy Limited. He works in the engineering surveying profession for many significant infrastructure projects.

Sr LAM is the President of The Hong Kong Institution of Engineering Surveyors (HKIES) since 2019. He is also Council Member of Land Surveying Division (LSD) of The Hong Kong Institute of Surveyors (HKIS) for year 2024, member of the Appeal Tribunal Panel---Building Ordinance (Cap 123).

(Note: Sr means Surveyor in Hong Kong)

Mr. Michael Leung began his career in Land Surveying discipline and migrated to the BIM discipline. Over the years of extensive experiences, he has participated across different phases of project cycle and project management. He had been worked for the CIC and focus on Standard and Specification preparation and publication, as well as promoting and facilitating the CCBM/CCBC course and accreditation scheme, BIM Uses, CDE, FM/AM, Digital Twin and other integration solutions to the industry.
